

Comprehensive list of Arthropods, Helminths and Haemoparasites species

Ticks

Species	Isolate
<i>Rhipicephalus sanguineus</i>	European
	European (CRL)
	USA
	South African
<i>Rhipicephalus turanicus</i>	European
<i>Rhipicephalus appendiculatus</i>	South African
	UGANDA
<i>Rhipicephalus microplus</i>	South African
	BENIN
<i>Rhipicephalus decoloratus</i>	South African
<i>Rhipicephalus evertsi</i>	South African
<i>Dermacentor reticulatus</i>	European
	European (CRL)
<i>Dermacentor reticulatus</i> (<i>Babesia canis</i> infected)	European
<i>Dermacentor variabilis</i>	USA
<i>Ixodes ricinus</i>	European
	European (CRL)
<i>Ixodes ricinus</i> (<i>Anaplasma phagocytophilum</i> infected)	European
	USA
<i>Ixodes hexagonus</i>	European
<i>Amblyomma americanum</i>	USA
<i>Amblyomma hebraeum</i>	South African
<i>Amblyomma variegatum</i>	Tanzania
<i>Haemaphysalis elliptica</i>	South African
<i>Haemaphysalis longicornis</i>	USA

Fleas

<i>Ctenocephalides felis</i>	European
	USA

(We can source *Ctenocephalides canis*)

Flies

<i>Stomoxys calcitrans</i>	South African
<i>Lucilia cuprina</i>	South African
<i>Musca domestica</i>	South African

Mosquitoes

<i>Aedes aegypti</i>	South African
	Liverpool
<i>Culex quinquefasciatus</i>	South African
<i>Aedes albopictus</i>	European

Mites

<i>Psoroptes ovis</i>	South African
<i>Otodectes cynotis</i>	European
<i>Demodex spp</i>	South African
<i>Sarcoptes scabiei</i>	South African

Lice

<i>Bovicola bovis</i>	South African
<i>Bovicola ovis</i>	South African

Haemoparasites

Species	Isolate
<i>Babesia canis</i>	European
<i>Babesia vogeli</i>	European
<i>Ehrlichia canis</i>	South African
<i>Babesia rossi</i>	South African
<i>Trypanosoma congolense</i>	Various
<i>Trypanosoma vivax</i>	Various
<i>Anaplasma phagocytophilum</i>	European
<i>Theileria parva</i>	Kenya

Helminths

<i>Haemonchus contortus</i> (Susceptible)	South African
<i>Teladorsagia circumcincta</i>	South African
<i>Trichostrongylus colubriformis</i>	South African
<i>Dipylidium caninum</i> (Canine genotype)	European
	USA
<i>Dipylidium caninum</i> (Feline genotype)	South African
<i>Ancylostoma tubaeforme</i>	European
	USA
<i>Ancylostoma caninum</i>	European
<i>Ancylostoma braziliense</i>	South African
<i>Trichuris vulpis</i>	USA
<i>Uncinaria stenocephala</i>	European
	USA
<i>Toxocara canis</i>	European
	USA
<i>Toxocara cati</i>	USA
<i>Toxascaris leonina</i>	EURO
	USA
<i>Spirocerca lupi</i>	South African
<i>Dirofilaria immitis</i>	Various
<i>Angiostrongylus vasorum</i>	UK/Swiss

Sand flies

<i>Phlebotomus perniciosus</i>	Madrid
--------------------------------	--------

Other

<i>Periplaneta americana</i>	South African
<i>Blattella germanica</i>	South African
<i>Lepisma sp.</i>	South African
<i>Alphitobius diaperinus</i>	South African
<i>Dermestes maculatus</i>	South African
<i>Gryllus sp.</i>	South African
<i>Formicidae</i>	South African
<i>Cimex lectularius</i> - bedbug	South African
